

M&J M4000

Mobile Pre-shredder

Superior
Recycling
Technology

Built to move, engineered to perform

The M&J M4000 mobile pre-shredder is a powerful unit built for maximum versatility and mobility. Its unmatched power means you don't need to spend time pre-sorting material. It shreds bulky waste, MSW, C&I waste, wood, C&D debris, and more with ease - giving you the freedom to shred on-site without sacrificing performance. The M&J M4000 is available on crawlers or a trailer, so you can easily relocate it between sites or around your facility as needed. The M&J M4000 is ready to roll.

Versatility on the move:

M&J mobile pre-shredders deliver reliable performance across various applications - all while on the move. You get a truly universal shredder ideal for landfills, rentals, and more.

Tackle the toughest waste:

Tested to tackle the toughest shredding jobs, thanks to aggressive, hard-steel knives welded onto the shaft and an open cutting table for debris to fall through.

Key benefits at a glance

Improve your productivity:

The twin-shaft, asynchronous cutting system reduces bridging and ensures consistent output, while an anti-jam system keeps operations running smoothly even on tough waste.

Operate trouble-free:

Smart design minimises unplanned repairs and stops, lowering operational costs. Access real-time performance data via myM&J Performance and control the shredder remotely for safe, efficient handling, even while operating.

Specification

Up to 100 t/h
Capacity

From 450 to 100 mm
Grain size < 90%

6, 8, 9, 10, 12
No. of knives

403 kW
Installed power (nominal)

Up to 56 rpm
Rotation speed

2420 x 2000 mm
Cutting area (LxW)

2
No. of rotor

Welded
Assembly of knives on shaft

Unique M&J Features

Monitor your shredder's health.

With **myM&J Performance**, you can monitor your shredder's health in real-time and avoid costly breakdowns.

myM&J Performance is a digital solution that optimizes your M&J shredder's operations. Through remote data monitoring of your shredder, you will get access to critical insights into your waste shredder's condition, performance, and maintenance needs.

Testimonial

During a demo with the M&J M4000, a 16x80 ft. mobile home with four axles was fed to the shredder. It literally ate it like a cookie. It was very, very impressive... no competing mobile shredders compared to M&J"

Charles Hartsell
