

# DATA DESTRUCTION SHREDDERS

Data Destruction is one of the fastest growing segments in the Information Destruction Industry. As many as 53% of businesses don't use a professional service to destroy old hard drives, USBs or other hardware that contain confidential information. Only physical destruction ensures the data on an old hard drive is 100% destroyed.

Shred-Tech's ST-5 Data Destruction Shredders are specifically designed to destroy your data drives so that data can never be retrieved or reconstructed. Only complete, physical destruction will ensure that your digital data is permanently destroyed.

## ST-5 MOBILE DATA DESTRUCTION SHREDDER

Provide an additional revenue stream to your business by adding the ST-5 Mobile to any new Shred-Tech truck, or by retrofitting an existing truck.
